

**Summary of Changes Being Made by Notice of Change
To the State Aid to Libraries Grant Rules
7-24-2009**

A Notice of Change will be published to incorporate additional changes to the State Aid to Libraries Grant program guidelines and application packet. The changes are being made in response to comments received about the proposed rule.

The additional changes have been added to the grant guidelines and application packet as follows:

- **Page 7.** This change adds a clarification to the definition of the Single Administrative Head to require that the individual be employed full-time by the library.
- **Page 9.** This change adds the full-time employment requirement for the single administrative head to the eligibility requirement.
- **Page 52.** This is a technical change to remove three specific authority citations from the rule. These citations are not necessary.
- **Page 74.** This change is adding 2 additional questions to the Annual Statistical Report form. The questions are related to gathering information related to the recently passed Internet Safety Education legislation.

All other strikethrough and underlined changes in the packet have previously been reviewed, approved and published as a part of the Notice of Proposed Rule.
